Check Out the Word Search/Jumble Puzzle

To qualify to win any prize including the **Grand Prize** of a **.25 ct Diamond**, donated by **Chris Bowen**. You must be a member of FSG-GP, get all the words in the Word Search and answer the 25 questions following the Word Search correctly. In the case of more than one Grand Prize winning entry there will be a drawing. There will be additional prizes for the runner-ups. So get out your books from the Diamonds and Colored Stones workshops and you'll need to research the Web as well. I got most of the info that way, so see how many answers you find.

Members of the board will not qualify for prizes.

Here's an exciting teaser from our Treasurer **Tamara Prudhomme**:

"**Karyn Spirson** and I have just returned from the Wildacres Retreat that the FSG West Coast Chapter puts on each year. What a fantastic time we had!

We both signed up for Found Object jewelry taught by **Ken Bova**. There were 6 classes taught by nationally recognized jewelry artists: **Jean Stark** - granulation, **John Cogswell** - creative stone setting, **Linda Darty** - enameling, **Barbara Becker Simon** - lamp work beads, **Tom McCarthy** - metalsmithing and of course, Ken Bova.

The food was excellent and facilities were rustic. Studios were not what I dream of, but were useable and reliable. The weather was perfect for working in-doors (it was raining until the day we left!).

If you ever get an opportunity to go to Wildacres, take it! The 12-hour drive was worth all the incredible inspiration, new friends and renewed peace found within.

Hope to see you all at the next FSG meeting so Karyn and I can show you the new riveting hammers that we forged and the jewelry that we made!"

Word Search Jumble Puzzle

There are 72 words in the Word Search. Some of the words like LapisLazuli are counted as one word. There are 81 words in the list below and they are the source for Word Search as well as the questions on Page #3.

I hope you find it Fun, Challenging, and Educational. I have had a lot of fun putting it together, so any errors are mine alone. (Some words appear more than once in both parts of the puzzle) ~ Valerie ~ FSG-GP Newsletter Editor
